SWEET CORN MAGDA F1

Technical Features

- * Strong hybrid variety with vigorous plant that doesn't lodge easily.
- * Full season variety and matures between 79—82 days.
- * Recommended for planting during Spring and Summer seasons in the open field.
- * Large attractive ear of 20 rows in width and 76 cm in length, highly productive.
- * Yellow sweet corn suitable for fresh market and cooking.
- * Magda F1 is resistant to rust and highly tolerant to MDMV.
